This inset box shows the parts list for step 23. It includes a small black pin (2x), a black Technic bush (2x), a black Technic axle (1x), and a black Technic axle with a hole (1x).

2x

This inset shows a close-up of a black pin being inserted into a black bush. The number '2x' indicates that two of these assemblies are required.

The diagram illustrates the assembly of a sub-assembly in three steps:

- Step 1: A black axle is inserted into a grey Technic frame.
- Step 2: A grey Technic component with a hole is attached to the axle.
- Step 3: A black pulley is attached to the end of the axle.

Small blue boxes with the number '4' indicate the location of a specific part in the assembly.

The main image shows a complex Technic assembly. A sub-assembly, constructed from grey Technic beams and black axles/pulleys, is being positioned to be attached to a larger mechanism. A red laser line indicates the alignment of the sub-assembly. A yellow arrow points to the sub-assembly from the assembly diagram above. The larger mechanism includes a grey Technic beam with the word 'TECHNIS' printed on it, and various black and grey components.
