## Billund Airport

The story of Billund Airport – Denmark's second largest airport – is closely tied to the LEGO® Brick.

The LEGO Group built its own runway and purchased its first aeroplane in 1962, paving the way for the first air route between Billund and Copenhagen to open on 1 November 1964.

Today, Billund Airport serves as the international airport for all of West Denmark and plays a major role in the region's development. You cannot create growth and development without infrastructure, and the airport is the lifeblood, which makes West Denmark international and ensures good development opportunities, with a large number of airlines ferrying people and freight around the globe.

In this box you will find a miniature version of Billund Airport as it has appeared since 2018. Only 10,000 of these sets will be manufactured.

Enjoy building!

## Billund Airport

Historien om Danmarks næststørste lufthavn, Billund Airport, hænger tæt sammen med LEGO® klodsen.

LEGO Koncernen anlagde i 1962 sin egen landingsbane og købte sit første fly, og det lagde grunden til, at den første rute mellem Billund og København åbnede den 1. november 1964.

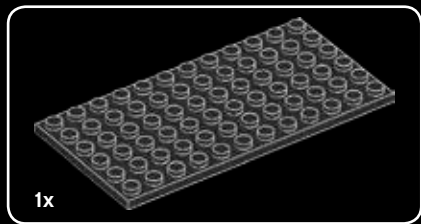

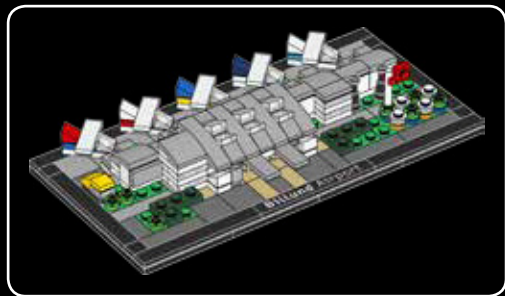

I dag er Billund Airport hele Vestdanmarks internationale lufthavn og har stor betydning for den regionale udvikling. Man kan ikke skabe vækst og udvikling uden infrastruktur, og lufthavnen er i dag livsnerven, der gør Vestdanmark international og sikrer gode udviklingsmuligheder med et stort antal flyselskaber, der flyver mennesker og fragt kloden rundt.

I denne æske finder du en kopi af Billund Airport, som den har set ud siden 2018. Æsken bliver kun produceret i 10.000 eksemplarer.

God fornøjelse!
