LEGO.com/service/buildinginstructions

We're switching from plastic to paper-based packaging. That's why you might find a mix of paper and plastic in our boxes!

Wir stellen von Kunststoffverpackungen auf Verpackungen auf Papierbasis um. Möglicherweise findest du deshalb sowohl Papier als auch Kunststoff in unseren Boxen!

Nous abandonnons progressivement les emballages en plastique au profit d'emballages à base de papier. Il est donc possible que vous trouviez à la fois du papier et du plastique dans nos boîtes !

Stiamo passando dagli imballaggi di plastica a quelli basati su carta. Ecco perché potrete trovare un mix di carta e di plastica nelle nostre confezioni!

Estamos sustituyendo las bolsas de plástico por bolsas con base de papel. ¡Por eso, puede que encuentres una mezcla de papel y de plástico en nuestras cajas!

Estamos a substituir as nossas embalagens de plástico por embalagens à base de papel. Por isso poderá encontrar um misto de papel e plástico nas nossas caixas!

Átállunk a műanyagról a papír alapú csomagolásra. Ezért előfordulhat, hogy a dobozainkban papír és műanyag zacskót egyaránt találás!

Mēs pārejam no plastmasas iepakojuma uz iepakojumu, kurā izmantots papīrs. Tāpēc mūsu kārbās var būt gan papīra, gan plastmasas daļas.

Trecem de la ambalaje din material plastic la ambalaje pe bază de hârtie. Iată de ce s-ar putea să găsești un amestec de hârtie și material plastic în cutiile noastre!

我们正在从塑料包装向纸基包装过渡。这就是为什么你可能会发现我们的包装盒中同时出现塑料和纸质材料！

LEGO® House experiences in five builds

LEGO® House is the world's best play date for children, adults and children at heart everywhere. It is a unique LEGO experience house located in the centre of Billund, Denmark, where the LEGO brick was invented. For this reason, it is also called "Home of the Brick™." Get ready to enter a world of creativity and imagination.

LEGO House

Designed by world-renowned architect and design group BIG – Bjarke Ingels Group, LEGO House itself is an experience to visit and explore. The beautiful, colourful and imaginative building is designed to look like 21 giant LEGO elements stacked on top of each other. The façade is covered with tiles that resemble classic LEGO tiles.

A large, multi-story LEGO tree sculpture is the central focus of the image. The tree is constructed from brown bricks for the trunk and branches, and green and yellow bricks for the foliage. It stands in a bright, modern museum space with a high ceiling and glass railings. The tree's canopy is dense and spreads across several levels of the building. The background shows the interior architecture of the museum, including a staircase and various lighting fixtures.

Tree of Creativity

LEGO® House is home to one of the world's most iconic LEGO models, the Tree of Creativity. Rooted in LEGO Square inside the entrance, it towers several floors and, from a distance, looks like a real tree. 15 m (49 ft.) tall and built with 6,316,611 LEGO bricks, it is full of fun, quirky details that play out in and around the tree.

The Wooden Duck

In the LEGO® Store in LEGO Square, you can find limited-edition LEGO sets and products sold exclusively here. Among them is "The Wooden Duck" (40501), which represents the beginning of the LEGO Group when LEGO founder, Ole Kirk Kristiansen, started producing wooden toys in 1932.

Three Dinosaurs

Three giant LEGO dinosaurs greet visitors at the top of the stairs, inside the Masterpiece Gallery in the Experience Zones. These models are a tribute to the three different building systems within the LEGO portfolio. The red dinosaur is made from LEGO DUPLO® bricks, the green from LEGO System bricks and the yellow from LEGO Technic elements.

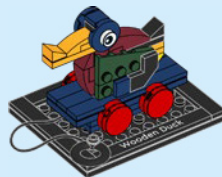

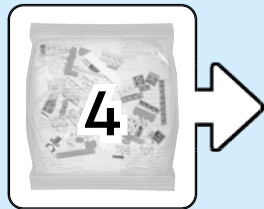

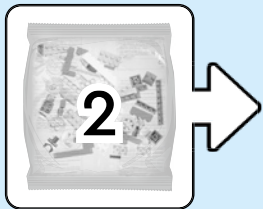

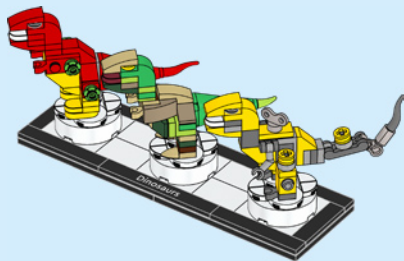

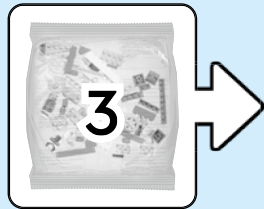

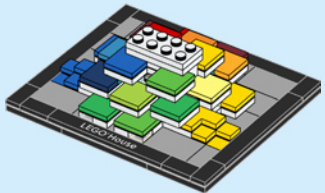

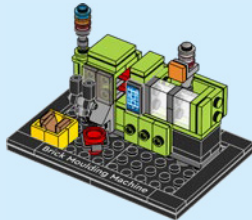

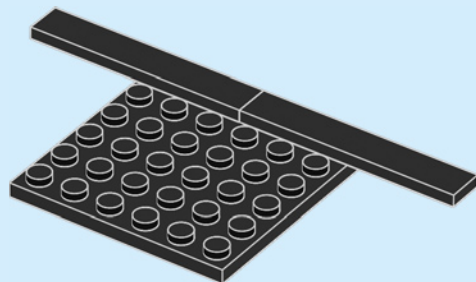

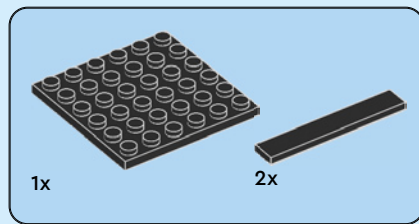

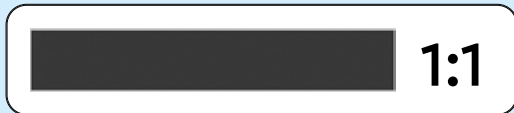

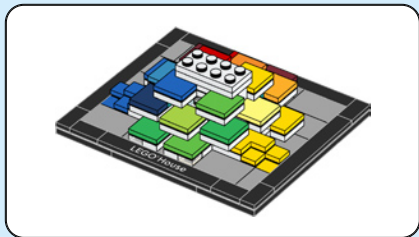

Brick Moulding Machine

In LEGO® House, guests can also experience up close a real-life injection moulding machine producing LEGO bricks. The green moulding machine is identical to some of the machines found at LEGO production sites around the world. The LEGO Group purchased its first plastic injection moulding machine in 1946, and this process has been the cornerstone in the manufacture of LEGO bricks ever since.
