PRIZED FOR CENTURIES, FOREVER IN BLOOM

Theophrastus, a student of Aristotle, loved them. Confucius, the great philosopher, wrote poems for them. For centuries, orchids have found their way into the hearts of many, and today they find their way into yours. While other orchids require the highest levels of attention, the LEGO® Orchid will thrive even in low light, does not require extreme humidity and is probably the easiest to get to bloom again and again.

The three models cannot be built simultaneously.

FLOWERS JUST THE WAY YOU LIKE IT

Featuring six full blossoms and two smaller buds, you can trim stems to different lengths, rotate roots and leaves to keep them healthy, and get new arrangements simply by moving blossoms around any way you like.

FROM THE DESIGN TEAM

Mike has been designing LEGO® products for well over 9 years now. Creating the geometry of the pot was one of his favourite challenges in this model. *"Designing orchids that sit in a sand-blue fluted pot, that are not only fun to build but also beautiful to look at, was an exciting challenge for me. While real orchids were brought in to inspire me, I must admit that the LEGO Orchid is far easier to care for and is certainly a lot more enjoyable to be around."*

Michael Psiaki, Design Master

The core of the pot is a modified version of the core used in the large tower of the LEGO® Hogwarts™ Castle set – Professor Sprout would be tickled with this.

The centre of the blossoms feature LEGO® frog elements – an homage to the pink frogs used as blossoms in the LEGO Bonsai Tree set.

Minifigure shields originally developed for the 1995 LEGO® Castle Line make up the sepals of the orchid.

Orchids are often potted with mulch to allow air flow and drainage for healthy roots. Here, the mulch is built from claw elements from LEGO® Nexa Knights sets.
