

The LEGO® experts guide to 1976.

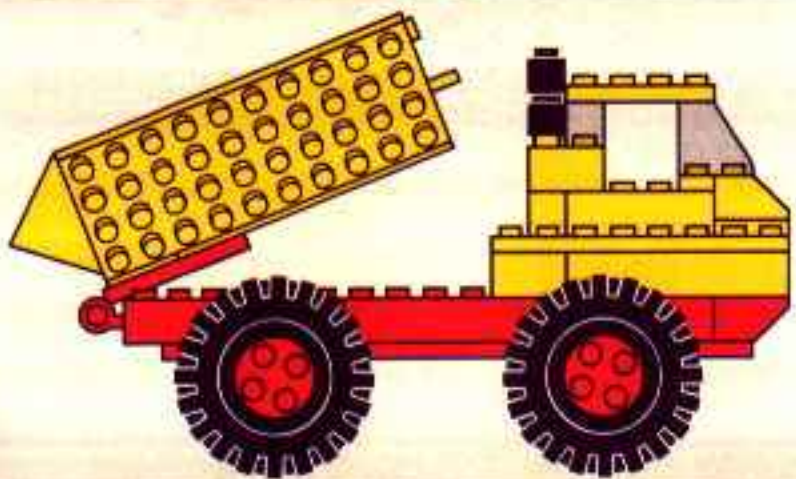

(or how to become a champion builder).

Tom is 7 and Jack is 9. They're pretty good at building with LEGO. Let them be your guide to all the new sets.

It's a new toy every day

All the NEW's

3 new Advanced Basic Sets for lads with big plans.

If you are about 7 and ready to start building more complicated models, then you are ready for one of these Advanced Basic Sets. Like ordinary Basic Sets they will build hundreds of different models, but these have more specialised components for greater

detail and realism. The biggest even has a motor. All 3 have building plans showing how to build some of the models on the box but the real fun comes from designing your own.

NEW

- 910 - Advanced Basic Set
- 911 - Advanced Basic Set
- 912 - Advanced Basic Set with motor

Give your best friend a box of LEGO.

When you are invited to a birthday party, one of these little packs makes an ideal gift. And there are lots to choose from.

Or for those times when you feel that you are your own best friend, well, give yourself a LEGO present!

612 - Tipper truck

614 - Digger

615 - Fork lift and driver

616 - Cargo ship

617 - Cowboys

653 - Ambulance and helicopter

656 - Car and Caravan

659 - Police patrol

660 - Car with 'plane transporter

661 - Spirit of St. Louis plane

662 - Dumper lorry

690 - Petrol station

691 - Rescue helicopter

692 - Road repair gang

693 - Fire engine

694 - Container lorry

695 - Racing car

696 - Bus stop

697 - Stagecoach

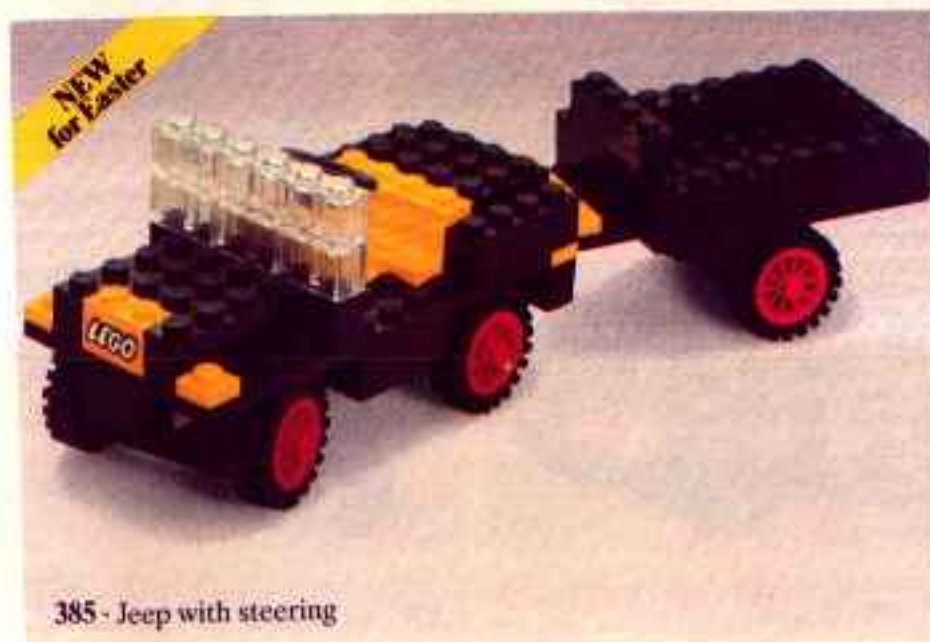

The Tom & Jack Construction Co.

Tom & Jack have started their own building firm. There's plenty of work to do - bricks to be delivered to their LEGO building site and a motorway to build across the sand-pit when the weather is fine. They find that the excavator and dumper from the 387 set are essential equipment. Those giant tyres and big caterpillar tracks are ideal for rugged country.

387 - Excavator and dumper

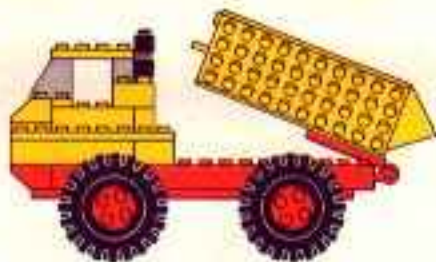

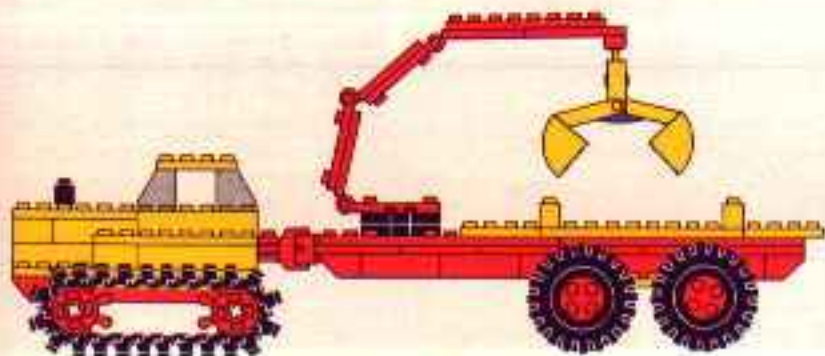

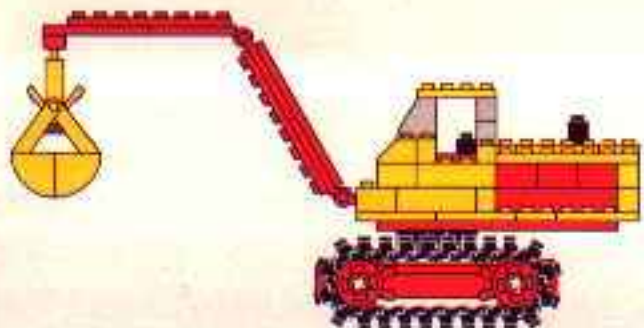

385 - Jeep with steering

384 - London bus

You can build other models than those shown on any LEGO box of course. Here are just a few examples to give some idea of how you can redesign things to suit yourself.

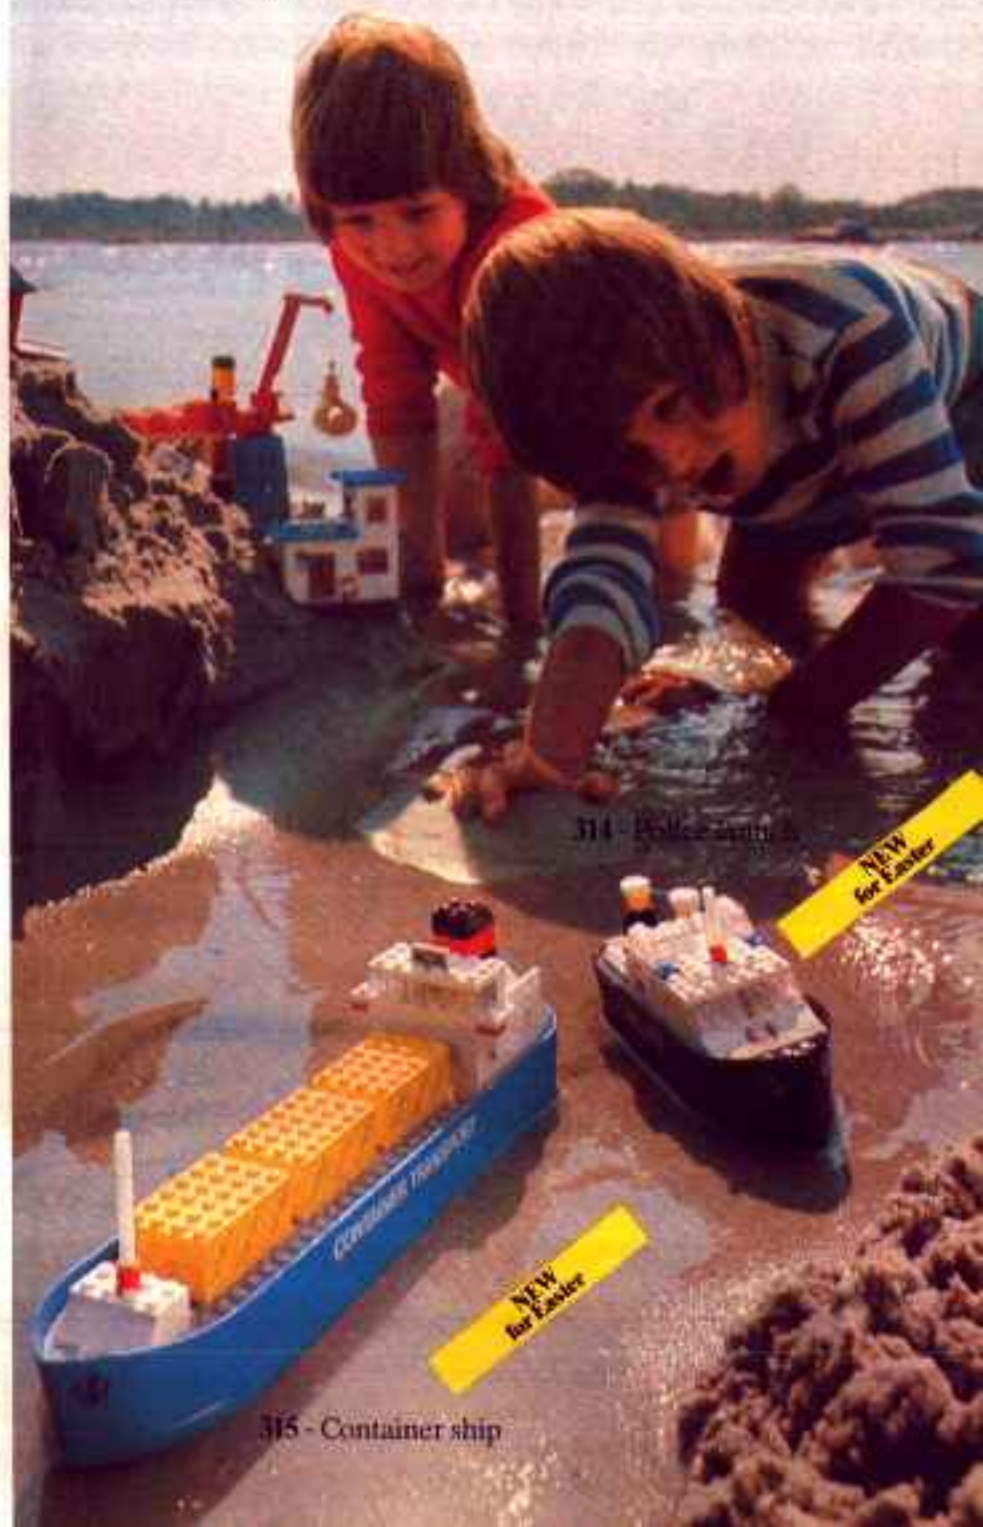

386 - Red Cross helicopter and ambulance

Fancy yourself as a ship builder?

When there's water at hand, Tom & Jack turn to ship building. So don't forget to take your LEGO bricks when you go to the seaside. These new ships are great fun.

314 - Police ship

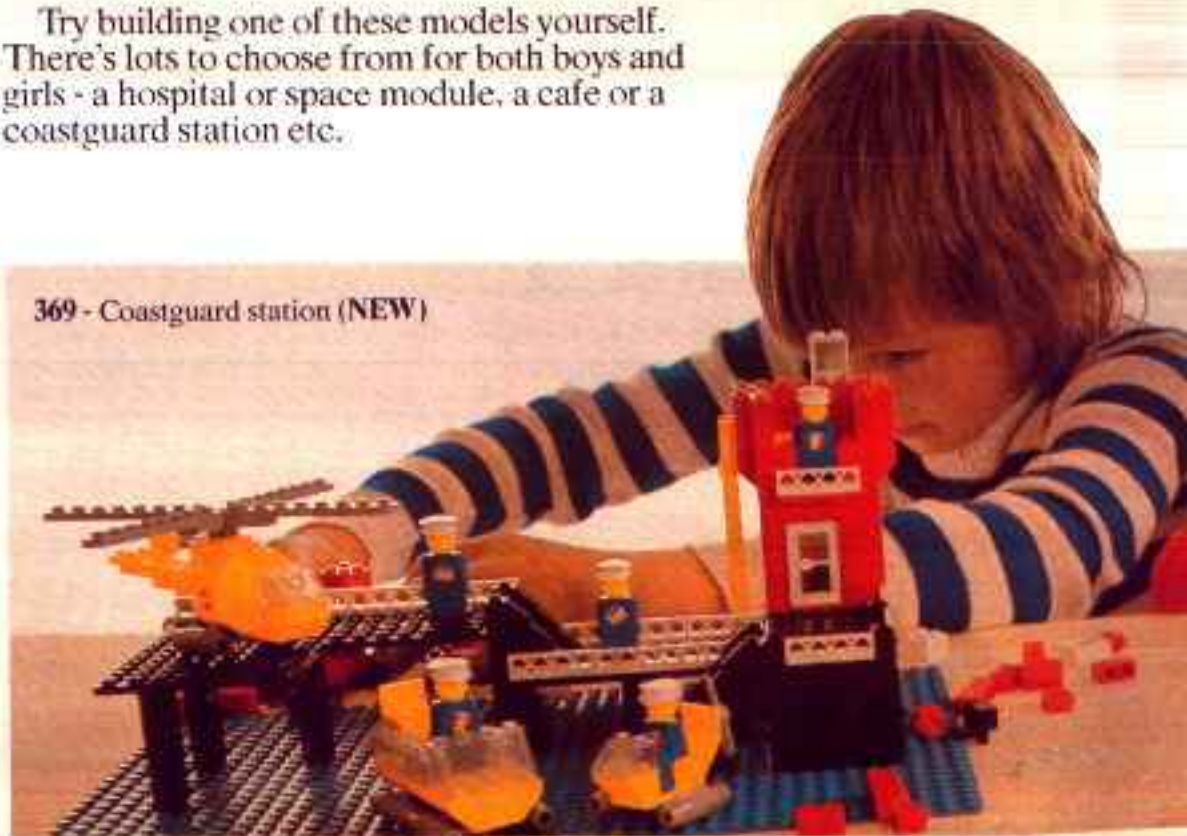

315 - Container ship

Be champion builders

Try building one of these models yourself. There's lots to choose from for both boys and girls - a hospital or space module, a cafe or a coastguard station etc.

369 - Coastguard station (NEW)

367 - Space module and astronauts

368 - Taxi garage

363 - Hospital

364 - Harbour scene with baseboard

like Tom and Jack

Then, when you have completed the model from the building plans you can transform it into something quite different of your own choice. That's the fun of LEGO.

370 - Police headquarters (NEW for April)

361 - Tea garden cafe

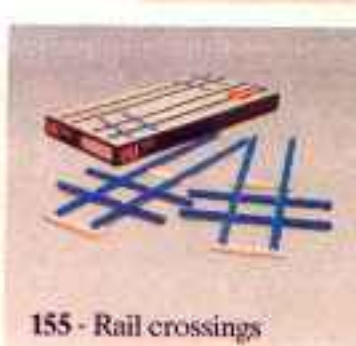

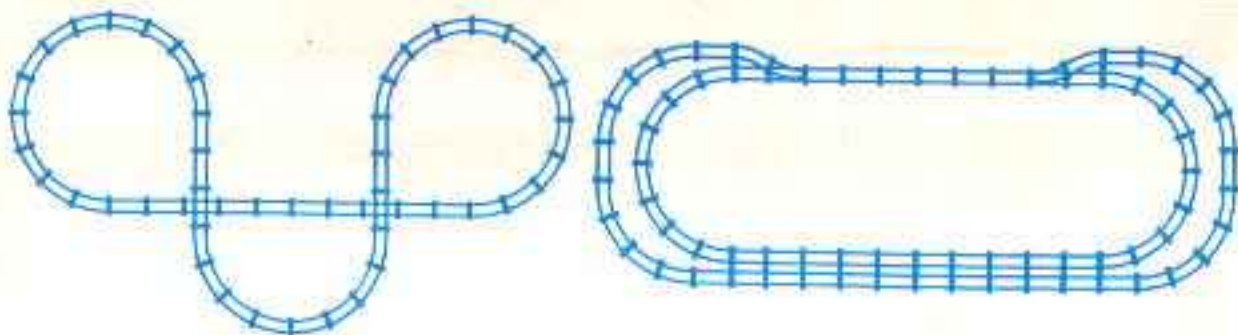

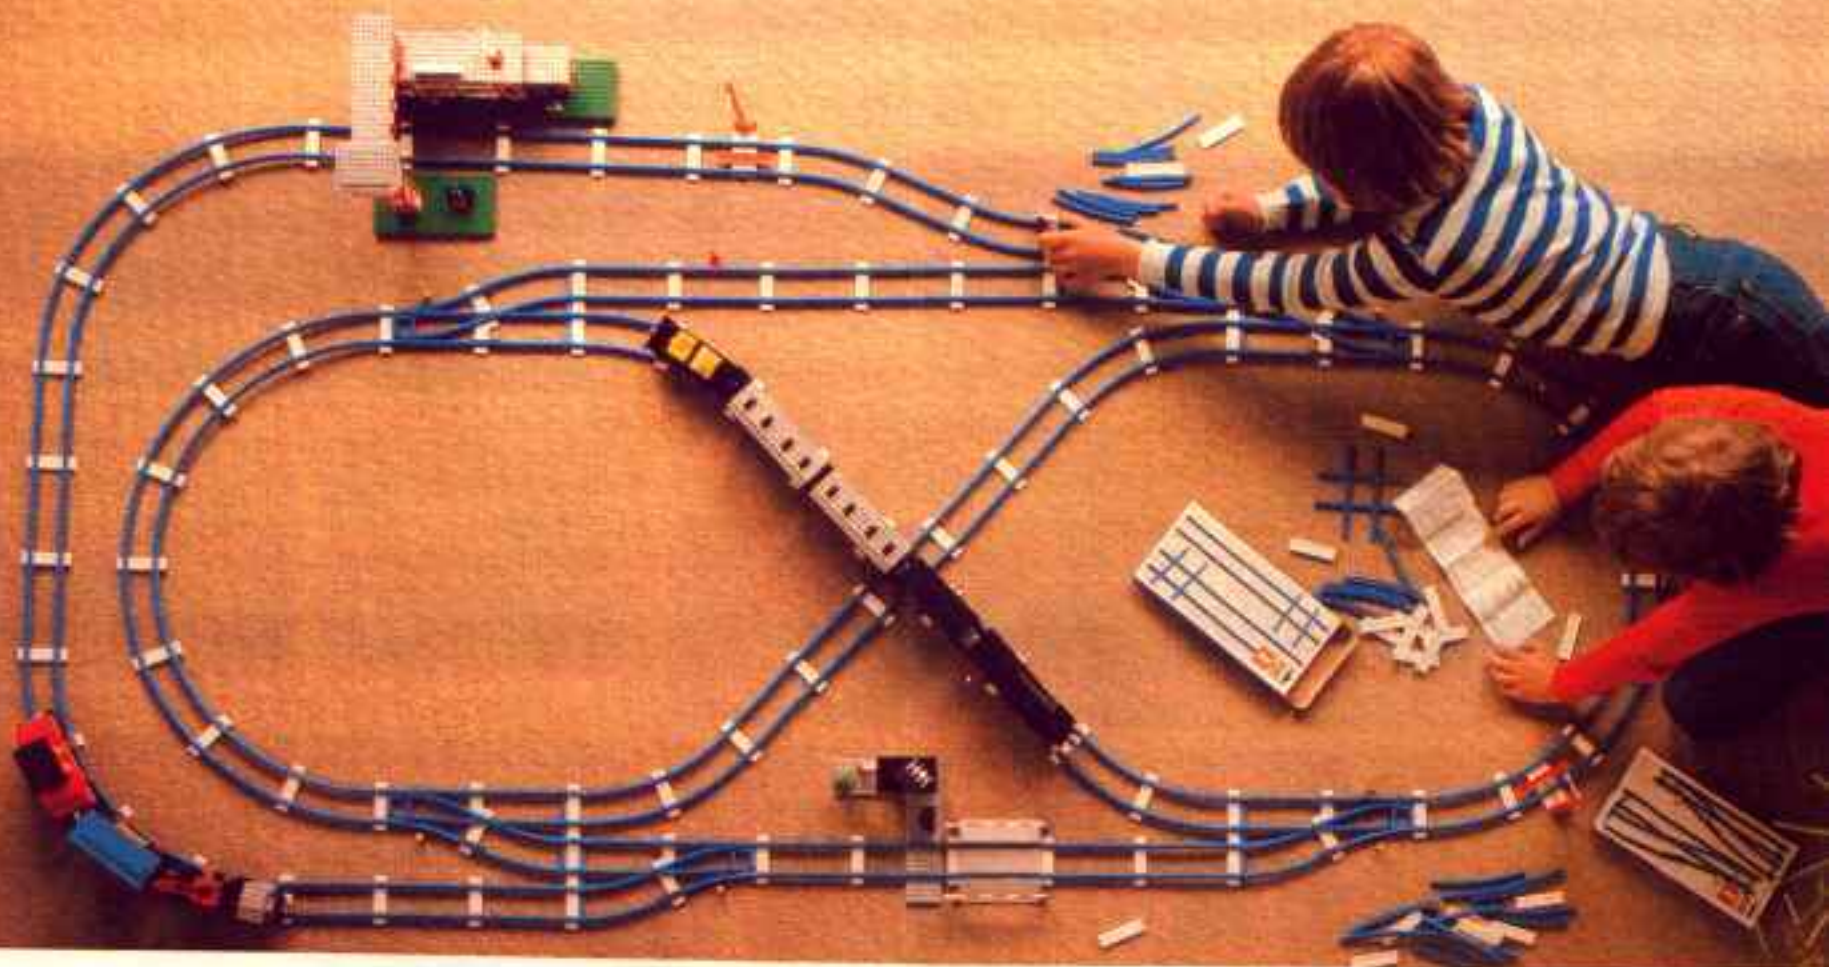

360 - Gravel works with dredger-crane

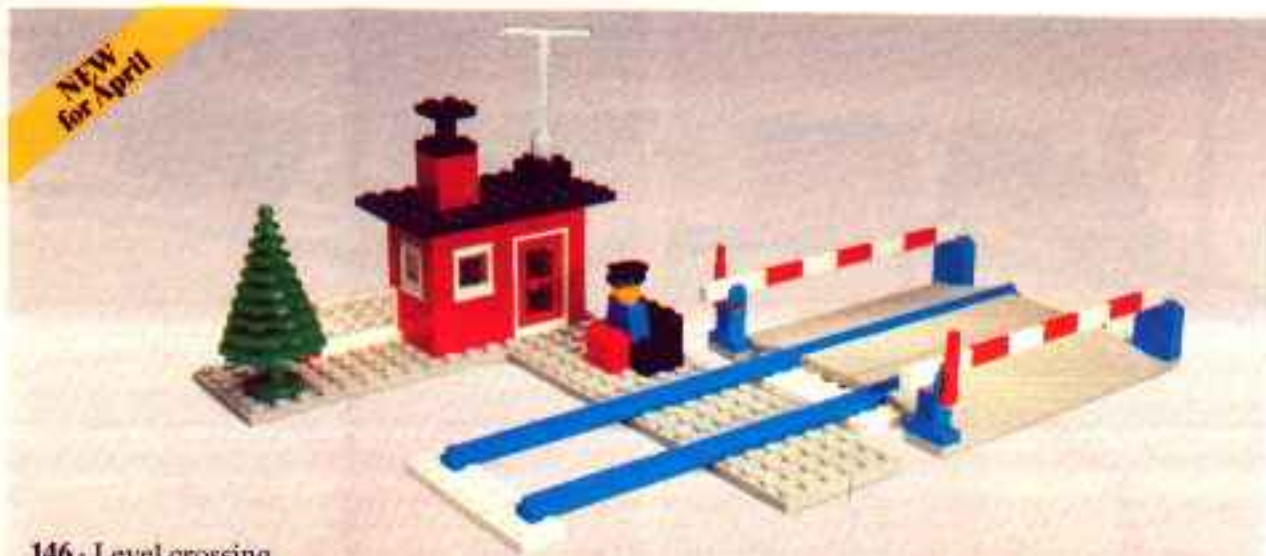

365 - Wild-West scene with baseboard

Join Tom and Jack in building a train layout.

LEGO trains are the only powered trains you can build yourself. There are building plans in the sets of course though you may wish to alter the design to suit your own ideas.

There are separate waggons, points and level crossings too. And you can build houses from your other LEGO bricks for extra realism.

146 - Level crossing

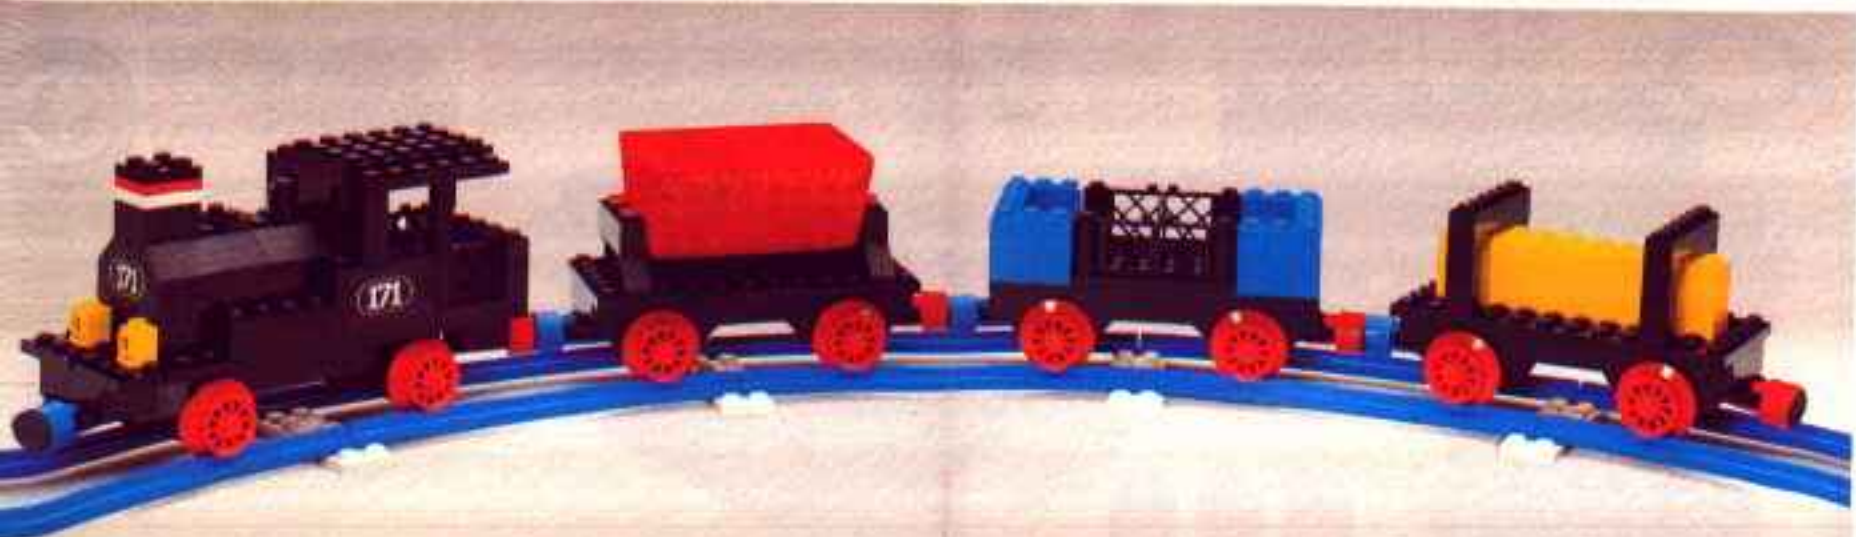

182 - Complete train set with motor, signal and shunting switch (NEW for April)

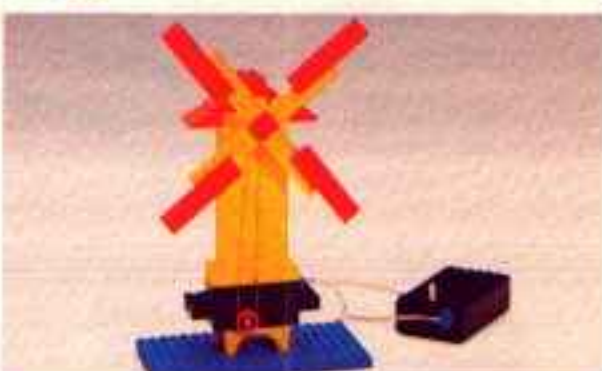

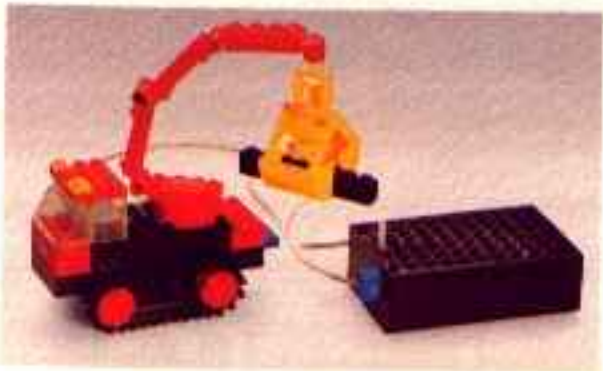

147 - Refrigerator wagon

134 - Mobile crane and wagon

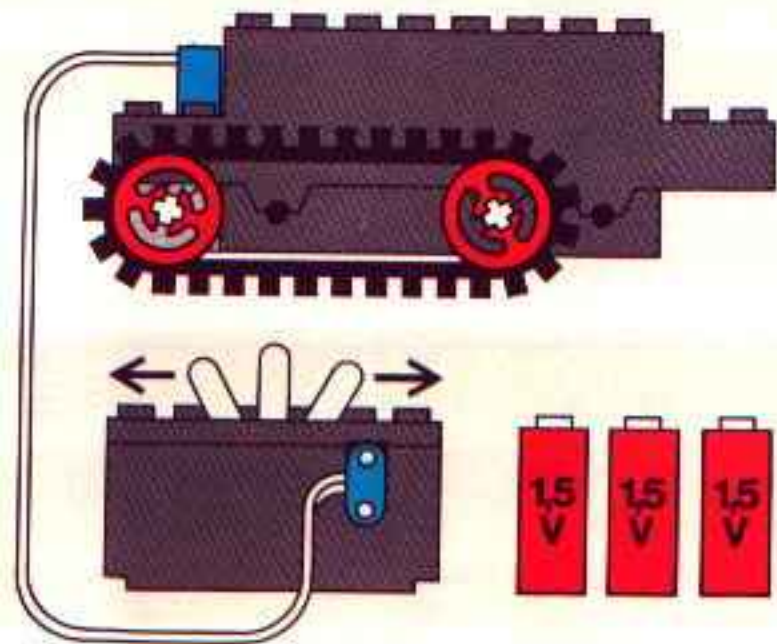

171 - Complete train set without motor (motor can be added)

Here's how to put real power into your models.

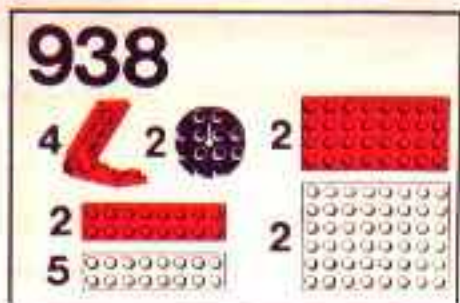

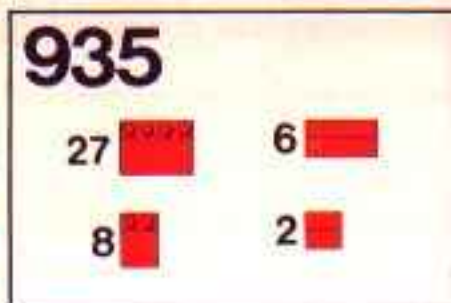

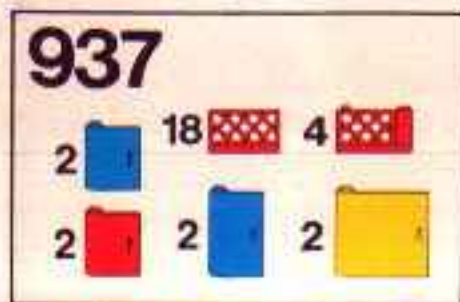

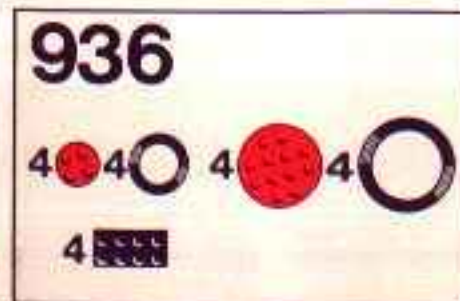

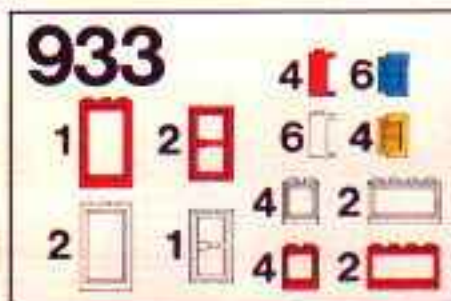

With a LEGO motor you can really get things moving. The new 107 motor makes it easier to power models using the LEGO gear wheels too.

We show you some of the things you can build with a motor but you can probably think of plenty more yourself.

107 - Complete Motor Set

Need some extra parts? These packs could be the answer.

812 - Gears set with chain link, etc.

795 - Baseplates, red and blue
796 - Baseplates, green and yellow
798 - Baseplates, green
799 - Baseplate, grey

222 - Building Book - 80 pages of ideas and instructions

Jerry shows Tom & Jack how a real LEGO expert works.

390 - 1913 Cadillac

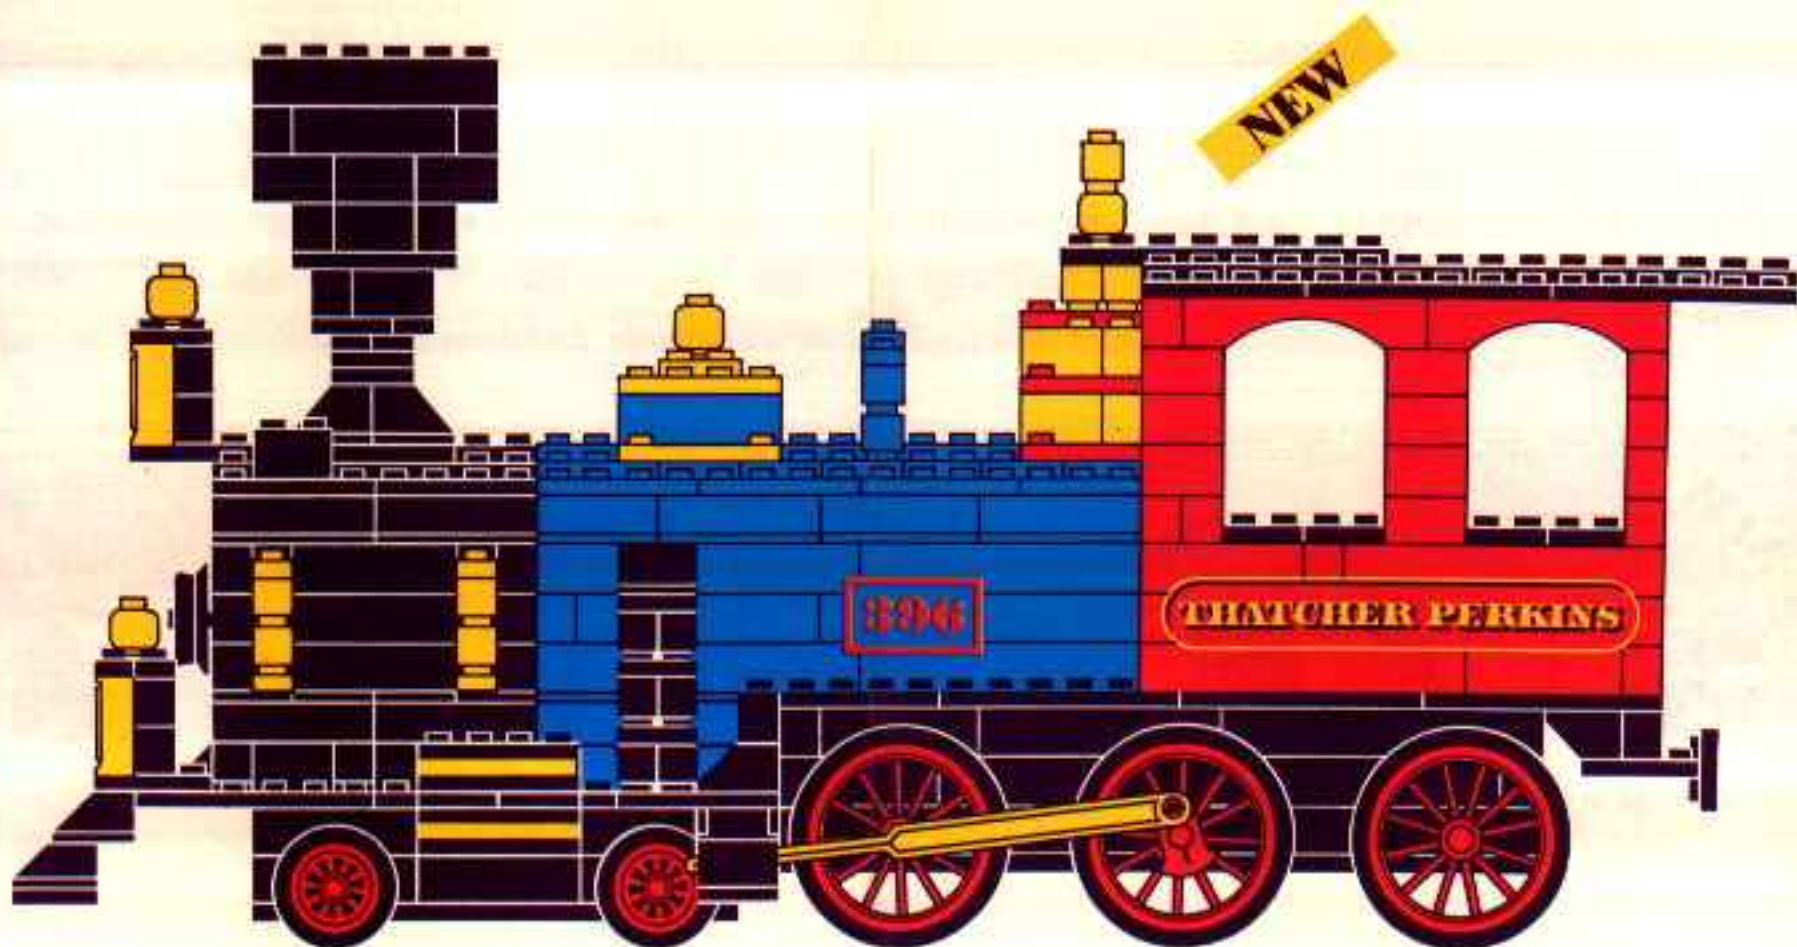

391 - 1926 Renault

392 - Formula 1.

Tom's big brother is a real LEGO expert. Here he shows Tom & Jack how to build one of the Hobby Sets. They have detailed building

instructions but even so they are quite a challenge, which is what Jerry enjoys. He several of them displayed in his room for his friends to admire.

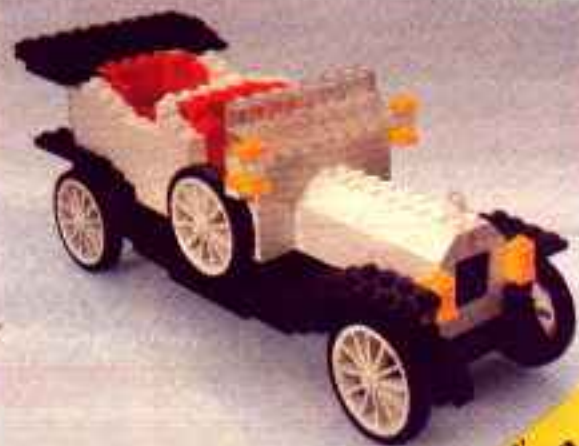

396 - Thatcher Perkins locomotive

393 - Norton motor cycle

394 - Harley-Davidson Police motor cycle

395 - 1909 Rolls-Royce

Be like Tom & Jack: give LEGO presents to brothers, sisters and friends.

Guarantee of satisfaction.

All LEGO sets are packed with great care, but if you should have a complaint, please write to our Consumer Service Dept. stating the number of the Set and giving details of the size and colour of any parts missing or damaged so that we can replace them. This will ensure satisfaction more speedily than if you return the Set to the shop where you bought it.

LEGO Spares Service

This service is to help you if you lose a special part or want an extra one without wishing to buy a complete set.

There are so many components in the LEGO range that we cannot offer them all but here is a selection of the ones you are most likely to want.

Prices include post and packing for U.K. and Ireland only.

Please note that this service applies only to items shown on this page. We regret we cannot supply complete sets. These can only be purchased from toy retailers in the normal way.
