Kladno 2015 Campus

Kladenská továrna – jak se stavěla

- 2000** Byla vystavěna první část továrny v průmyslové zóně Kladno – jih, tzv. Budova A. V dalších deseti letech docházelo k jejímu postupnému rozšiřování.
- 2006** Dochází k oddělení výroby modelů, která se přesouvá do nové haly, dnešní budovy SMA, v těsné blízkosti.
- 2010** Byla završena výstavba budovy A. V témže roce byl postaven první automatizovaný sklad.
- 2012** Byla postavena budova B, prostory továrny se tím zdvojnásobily.
- 2013** Byl přistavěn druhý automatizovaný zakladačový sklad. K Budově B byla přistavena další výrobní hala pro oddělení processingu.
- 2014** Byla dokončena první etapa výstavby Budovy C. Jednalo se o první výrobní halu a část manuálního skladu.
- 2015** Byly ukončeny stavební práce na Budově C.

Pokračuje stavba třetího automatizovaného skladu s plánovaným dokončením v roce 2016.

Kvalita pracovního prostředí a bezpečí zaměstnanců jsou na prvním místě

S ohledem na pohodlí zaměstnanců jsou budovy vybaveny vnitřními odpočinkovými místnostmi, fitness a masážním studiem, venkovními relaxačními prostory a sportovišti. Pod novou budovou je umístěno kryté parkoviště.

Projekt je přátelský k životnímu prostředí.

Budovy mají např. zesílenou izolaci, úložiště recyklovatelného odpadu, energeticky úsporné osvětlení, střešní clony snižující potřebu využívání klimatizace, dešťová voda se využívá pro sanitární zařízení.

Aktivity provozované v areálu LEGO v Kladně

- Balení stavebnic LEGO ve dvou krocích – prepacky a finální balení
- Processing – dekorace a montáž LEGO elementů, včetně zpracování minifigurek
- Výzkum a vývoj dekoračních a balicích technologií
- Shopper Marketing Agency - vývoj a výroba materiálu pro marketingovou podporu

Kladno Campus – how it was built

- 2000** The first part of the factory, the so-called Building A, was built in the Kladno JIH industrial zone. Over the following 10 years, the building was gradually expanded.
- 2006** The model production centre, today's Shopper Marketing Agency (SMA), was moved to a new building near the factory.
- 2010** The last extension of Building A was completed. The first high-bay warehouse was built.
- 2012** Building B was built, doubling the factory space.
- 2013** The second high-bay warehouse was added. A new additional hall to Building B for the Processing department was completed.
- 2014** The first construction phase of Building C was completed in the summer. The first production hall and one part of the manual warehouse were constructed.
- 2015** Construction work on Building C completed.

The construction of the third high-bay warehouse is still in progress, and is expected to be finalised in 2016.

Workplace quality and employee safety have top priority

For the comfort of our employees, the buildings are equipped with e.g. inside relaxation rooms, a fitness and massage studio, outdoor relaxation space and sports facilities. An underground parking area is situated under the new building.

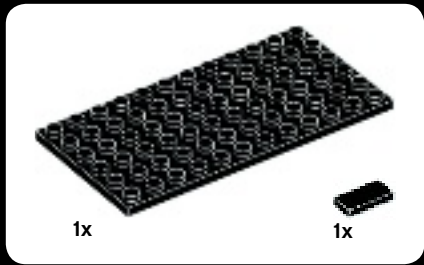

An environmentally friendly project

The campus buildings have extra insulation, recyclable waste storage, energy-efficient lighting and shades to reduce the need for air conditioning, and rainwater is reused for sanitary installations, to list a few of the environmental initiatives taken here.

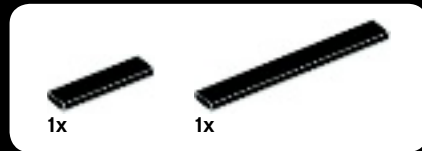

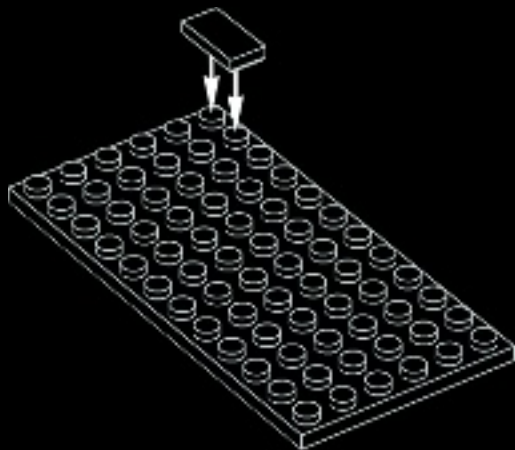

Activities in LEGO Kladno campus

- Packing of LEGO products through a two-step process: pre-packing and final packing
- Processing – decoration and assembling of LEGO elements, including LEGO Minifigure processing
- Research and Development of packing and decoration technology
- Shopper Marketing Agency – marketing campaign material development and production
