1987 #6990 MONORAIL TRANSPORT SYSTEM

With this set, LEGO® trains travelled into a futuristic space setting and introduced the grey-coloured monorail track for the first time. The set's sleek design included a cockpit with transparent blue windows, and space for a 9V battery, which powered the monorail motor attached at the rear. As part of the Futuron series, the original set also included five astronauts with the classic LEGO® space symbol on their uniforms.

Mit diesem Set haben sich die LEGO® Eisenbahnen in eine futuristische Weltraumkulisse begeben, in der zum ersten Mal die graue Monorail-Schiene benutzt wurde. Das schnittige Modell bestand aus einem Cockpit mit durchsichtigen blauen Fenstern. Es bot einer 9-V-Batterie Platz, die

den am Heck angebrachten Monorail-Motor antrieb. Das Originalset gehörte zur Futuron-Reihe und umfasste fünf Astronauten, die das klassische LEGO Weltraumsymbol auf ihren Raumanzügen trugen.

Med dette sæt rejste LEGO® togene ind i et futuristisk rummiljø, og det grå monorail-spor blev introduceret for første gang. Sættets elegante design omfattede et førerum med gennemsigtige blå vinduer og plads

til et 9 V-batteri, der drev motorrail-motoren, som var fastgjort bagerst. Det originale sæt var en del af Futuron-serien og omfattede desuden fem astronauter med det klassiske LEGO rumsymbol på uniformerne.

1987 #6990 Egysínű közlekedési rendszer

Ezzel a szettel a LEGO® vonatok egy futurisztikus környezetben száguldoztak, és első alkalommal gurulhattak a szürke színű egysínű pályán. A készlet áramvonalas kialakításában egy átlátszó, kék színű ablakkal ellátott vezetőfülke és egy 9 V-os elem is helyet kapott, amely a hátsó részhez rögzített egysínű motort táplálta. A Futuron sorozat részeként az eredeti készlet öt űrhajóst is tartalmazott, egyenruhájukon a klasszikus LEGO űr jelzéssel.

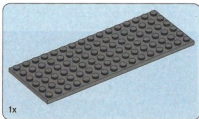

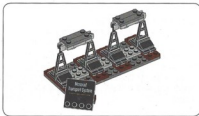

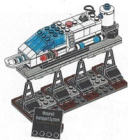

1987 #6990 Jednokolejný dopravní systém

V této sadě se LEGO® vlaky vydaly do futuristického prostředí vesmíru a do jejich řad tak přibyla šedá jednokolejná trať. Aerodynamický tvar modelu obsahoval kokpit s moderními průsvitnými okny a prostorem pro 9 V baterii, která poháněla motor jednokolejky nacházející se v zadní části. Tato sada byla součástí série Futuron, která obsahovala pět astronautů, kteří na svých uniformách měli klasický symbol LEGO Space.
