BUILDING

1991 #4558 EURO EXPRESS // #10001 METROLINER

←

This set came with a choice of two modern-styled locomotives, either of which could be constructed using the various pieces in the box. The model shown here contained a combined driver's cabin and dining car area separated by an engine space. The train ran on metal tracks and the set also contained a buildable railway platform and 11 minifigures. Originally from 1991, this model was one of the few sets to be relaunched with completely new packaging as part of the LEGO® Legends series in 2001.

1991 #4558 Moderner Hochgeschwindigkeitsszug // #10001 Metroliner

In diesem Set gab es gleich zwei moderne Lokomotiven, die beide aus den enthaltenen Teilen gebaut werden konnten. Das hier

gezeigte Modell bestand aus einem Wagen, der die Lokführerkabine und einen Speisewagenbereich beherbergte, die durch den Motorraum voneinander getrennt waren. Die Eisenbahn fuhr auf Metallschienen. Das Set enthielt außerdem einen Bahnsteig zum Zusammenbauen sowie 11 Minifiguren. Das Modell stammte ursprünglich aus dem Jahr 1991. Als eine der LEGO® Legends wurde es dann 2001 in einer völlig anders aufgemachten Verpackung erneut herausgebracht.

1991 # 4558 L'Euro Express // # 10001 Le Metroliner

Cet ensemble comprenait deux locomotives de style moderne, les deux pouvant être construites en utilisant les diverses pièces de la boîte. Le modèle montré ici contenait

une cabine de conducteur et un wagon-restaurant séparé par la salle des machines. Le train circulait sur des rails en métal et l'ensemble contenait aussi un quai de gare à construire et 11 figurines. Lancé en 1991, ce modèle fut l'un des rares ensembles à être lancé à nouveau avec un emballage totalement différent dans le cadre de la série LEGO® Legends en 2001.

1991 #4558 Euro Express // #10001 Metroliner

Este set incluía dos modernas locomotoras que se podían construir usando las piezas incluidas en la caja (aunque sólo una cada vez). El modelo que se muestra aquí está formado por la cabina del maquinista y un vagón restaurante, separados por el motor. El tren funcionaba sobre vías metálicas y

se vendia acompañado de una plataforma ferroviaria y 11 mini figuras. Comercializado originalmente en 1991, este modelo fue uno de los pocos que se pusieron de nuevo a la venta en un embalaje inédito hasta entonces como parte de la serie LEGO® Legends en 2001.

Metroliner

Med dette sæt kunne man vælge mellem to moderne lokomotiver, som hver især kunne bygges ved hjælp af de forskellige elementer i æsken. Modellen vist her indeholdt kombineret førerrum og spisevognsområde, der var adskilt af et motorrum. Toget kørte på metalskinne, og sættet indeholdt også en platform, der kunne bygges, og 11 minifigurer. Modellen var oprindeligt fra 1991 og var et af de få sæt, der blev relanceret med helt ny emballage som en del af LEGO® Legends serien i 2001.

Intercity

Ebben a készletben kétféle modern stílusú mozdonyt találsz, bármelyiket megépítheted a dobozban található különféle elemek felhasználásával. Az itt bemutatott modell egy vezetőfülke és egy étkezőkocsi

kombinációja, amelyet a géptér választ el. A vonat fémsíneken futott és a készlet egy felépíthető peront és 11 minifigurát is tartalmazott. Eredetileg 1991-es, de ez a modell volt azon kevés készletek egyike, amely 2001-ben teljesen új csomagolásban ismét megjelent a LEGO® Legendák sorozat részeként.

Tato sada obsahovala dvě moderní lokomotivy a bylo jen na stavění, kterou z nich si bude chtít postavit. Vyobrazený model měl kabinu strojvedoucího spojenou s jídelním vozem. Vlak se projížděl po kovových kolejkách a v sadě bylo také možné

najít sestavitelnou vlakovou zastávku a 11 minifigurek. Tento model, který byl původně vydán v roce 1991, byl jedním z mála, které byly vydány ještě jednou v novém balení jako součást série LEGO® Legends v roce 2001.
