THE DARK SIDE OF LEGO® STAR WARS™

We've been making *Star Wars*™ models since 1999 – awesome starships, minifigures to play with and collect, UCS display sets – and the dark side has been part of our range since the start. So much so that, in our launch year, Darth Maul himself made two separate LEGO® *Star Wars* appearances – in the 7101 Lightsaber Duel and the 7151 Sith Infiltrator sets. You could say we haven't picked a side.

31200 *Star Wars*™ The Sith™

Exclusive art you've never seen before

We set out to create something truly unique and different from anything else out there, so we based

this model on brand-new artwork created especially for LEGO® Art. The original drawings were all in black and white, and showed the three characters in a variety of poses and croppings. We worked closely with them to refine our selection, and added in the colouring and the lighting, as well as the Lightsaber elements that really make the artwork stand out. Essentially, we've created three exclusive, never-before-seen images that fans can build and display.

Star Wars: The Clone Wars

Star Wars Rebels

Solo: A Star Wars Story

We made five different versions of Darth Maul before we finally captured the look that we wanted to get out of him. Kylo Ren wears

a helmet and Darth Vader is looking 'off camera,' but Maul stares right at you. We're quite proud of the way his eyes capture the menace of the character. We found the right amount of cropping that brings you close to his face, and the effect is quite unsettling – and cool.

DARTH VADER

Darth Vader was our biggest design challenge, primarily because he's such an iconic character. We worked closely with Lucasfilm, played around with different poses and the Lightsaber's reflection, and went back to the drawing board several times. We kept looking at the design and thinking "still not quite right". Capturing his half-profile pose with LEGO® elements was hard work, but we're really pleased with the result.

EVOLUTION

Two intergalactic icons in one:
Darth Vader and LEGO® Star Wars™

APPEARANCES

Star Wars: A New Hope
Star Wars: The Empire Strikes Back
Star Wars: Return of the Jedi
Star Wars: Revenge of the Sith
Rogue One: A Star Wars Story
Star Wars Rebels

KYLO REN

APPEARANCES

Star Wars: The Force Awakens

Star Wars: The Last Jedi

Star Wars: The Rise of Skywalker

We had to get very close to Kylo Ren's face in order to make his helmet shine – otherwise you wouldn't be able to distinguish the stripes of light that run through it when you build it with LEGO® elements. The final design is a pretty tight close-up, so fans can build the shadowy areas with black pieces and all the contrasting light elements can stand out.

EVOLUTION

How will the Kylo Ren models evolve in the future? Patience we must have.
